

Lesson 8: Bird Tracks

Materials: playdoh, pencils, utensils, or other items

Set out sticks, pencils, or other items to press into playdough. Invite children to explore making prints in the dough using the various materials. Make bird tracks or other animal tracks.

You can ask:

Do bird tracks all look the same?

Which birds have big tracks? Small tracks?

What happens when you push an object into playdough?

What else do you want to learn about birds?
