Three Blue Birds

How does the child investigate pushing various objects throughout the day?

Young Infant

Show the child a picture of a bird.

READY?

Play the song and slowly move the picture card up, down and side-to-side. Observe how the child gazes at the picture and follows it with his eyes. Make sounds to increase attention and engagement.

Older Infant

Place three bird picture cards in front of the seated child.

READY?

Play the song and lightly tap on a bird card. Invite the child to tap with you. At the end of the verse, invite the child to crawl and push the bird card across the floor. Ask, "Can you bring me the bird?" Tape the card to a block for increased durability.

Young Toddler

Place three bird picture cards in front of the seated child.

READY?

Play the song and lightly tap on a bird card. Invite the child to tap with you. At the end of the verse, invite the child to crawl and push a card across the floor. Repeat until all three bird cards are on the other side of the room.
